INTRODUCTION

1. In response to the note of the Secretary-General of UNCTAD dated 23 November 1973 requesting preference-giving countries to provide information on the operation of their respective schemes of generalized preferences, the Government of Sweden provided information on various categories of imports of products covered by its schemes for the period from 1982 to 1986. A summary of this information is given below, and the data on Swedish imports from beneficiaries is presented in table 1 of the annex.

Swedish imports from beneficiaries in 1982, 1983, 1984, 1985 and 1986

2. Table 1 shows, for all and individual groups of beneficiaries (Part A) as well as for each individual beneficiary (Part B), total, MFN dutiable, covered and preferential imports of products falling within CCCN chapters 1-24, 25-99 and 1-99.

3. Sweden recorded imports in 1982, 1983, 1984, 1985 and 1986, respectively, from 119, 114, 121, 120 and 124 countries and territories recognized as beneficiaries of its scheme. Of these beneficiaries 92 in 1982 and 1983, 94 in 1984, and 103 in 1985 and 1986, supplied goods covered by the scheme. Swedish imports from beneficiaries in 1986 amounted to $2,672.1 million, of which $1,144 million, or 42.8 per cent, were dutiable on a MFN basis. Some $557.6 million or 48.7 per cent of these dutiable imports were covered by the scheme, while 68.2 per cent of covered products ($380.4 million) actually received preferential treatment. Similarly, imports which were granted GSP treatment in 1982 accounted for 70 per cent ($219.4 million) of those covered by the scheme ($314 million). Despite improvements in the scheme, this rough stability in the utilization rate of the scheme in respect of all products reflects essentially the fact that throughout its operation the effective product coverage for beneficiaries has been reduced by across-the-board reductions to zero MFN rates of duty for a number of products in different years.

4. As can be seen in the table, the annual fluctuations in the ratios of both covered imports to dutiable imports (i.e., the coverage ratio) and preferential imports to covered imports (i.e., the utilization ratio) did not affect significantly the overall rate of utilization of the scheme, which represented more than two thirds of covered imports in each year.

5. More than four fifths of preferential imports from all beneficiaries in 1982 and 1983, 1985, and 1984 and 1986 were accounted for, respectively, by 10, 9 and 8 major beneficiary suppliers (MS). Ranked by order of their imports receiving GSP treatment, these major beneficiary suppliers were in:

1982: Hong Kong, Republic of Korea, Yugoslavia, Brazil, China, India, Singapore, Philippines, Mexico, and Malaysia.

1983: Hong Kong, Republic of Korea, Yugoslavia, Brazil, China, Singapore, India, Philippines, Malaysia, and Saudi Arabia.

1984: Hong Kong, Republic of Korea, Brazil, Yugoslavia, China, Singapore, Malaysia, and India.

1985: Republic of Korea, Hong Kong, Yugoslavia, China, Brazil, Singapore, Malaysia, Thailand, and Philippines.

1986: Republic of Korea, Hong Kong, Yugoslavia, China, Brazil, Singapore, Malaysia, and Thailand.

Imports from least developed countries (LDCs)

6. Total imports from LDCs behaved rather erratically during this period, showing wide variations from year to year. Likewise, except in the three-year period, when they decreased to varying degrees, both covered and preferential imports increased, respectively, by 9 per cent from 1984 to 1985 and by 19 per cent from 1985 to 1986.

ANNEX

TABLE 1

Swedish imports from beneficiary suppliers 1982-1986

Source: UNCTAD secretariat calculations, based on the notification received from the Government of Sweden.

a/ Exchange rate

1982	1 $US	=	7.294 Swedish Kroner
1983	1 $US	=	8.001 Swedish Kroner
1984	1 $US	=	8.989 Swedish Kroner
1985	1 $US	=	7.615 Swedish Kroner
1986	1 $US	=	6.819 Swedish Kroner

b/ MFN dutiable imports include duty-free items subject to variable levies.

c/ Hong Kong and Macao are included under "all countries" and excluded from "other territories".

GENERALIZED SYSTEM OF PREFERENCES

Replies received from preference-giving countries: Sweden

Note by the UNCTAD secretariat

Corrigendum

Page 3, paragraph 6, line 3, after "varying degrees" the text should read as follows:

"both the coverage ratio (share of covered imports in dutiable imports) and the rate of utilization of the scheme (ratio of preferential imports to covered imports) increased, respectively by nearly 1 per cent from 1984 to 1985 and by 19 per cent from 1985 to 1986".
